**NOTES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This financial report covers the Australian Forestry Management 2004 Land Trust (“the Trust”) which was registered as a managed investment scheme under Chapter 5C of the Corporations Act 2001 on 4 May 2004, established and domiciled in Australia. Under its Constitution, the Trust will terminate on the earlier of:

- the 80th anniversary of the date of the Trust Constitution less one day;
- a date specified by the Responsible Entity as the date the Trust will terminate in a notice given to unitholders; and
- the date on which the Trust is terminated in accordance with another provision of the Constitution or by operation of law.

Land that has been acquired by the Trust will be encumbered by licences to the growers (being predominantly investors) in the Australian Forestry Management 2004 Plantation Investment (“Plantation Investment”) for forestry plantation purposes. The Plantation Investment is a managed investment scheme with the same Responsible Entity as the Trust.

Basis of preparation

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards and Australian Accounting Interpretations of the Australian Accounting Standards Board, the Corporations Act 2001, and the Trust’s Constitution. The Trust is a for profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below. They have been consistently applied unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

a) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks and investments in money market instruments which are readily convertible to cash on hand and are subject to an insignificant risk of changes in value, net of bank overdrafts.

**Australian Forestry Management
2004 Land Trust**

**NOTES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013 (continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Investment property

Investment property, comprising land is initially recognised at acquisition cost and measured at cost in subsequent periods unless the carrying amount of land is greater than its recoverable amount. When such instances occur, the land will be written down to its recoverable amount and the decrement recognised as an expense in the statement of comprehensive income in the reporting period in which the recoverable amount write-down occurs.

c) Unitholders' funds

Under accounting standard AASB 132 'Financial Instruments: Disclosure and Presentation' unitholders' funds are regarded as liabilities as there is no unconditional right to avoid settling a contractual obligation to pay out the Trust's equity to unitholders' at the end of the life of the Trust.

d) Investment income and expenses

The Trust is entitled to rental revenue equal to 9.5% of the net final harvest proceeds of the Plantation Investment. Rental income is recognised when it can be reliably measured, which is expected to coincide with the final harvest in approximately 26 years from planting.

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instruments.

e) Income tax

Under current legislation, the Trust is not subject to income tax provided the distributable income of the Trust is fully distributed either by way of cash or reinvestment (i.e. unitholders are presently entitled to the income of the Trust).

f) Distributions

In accordance with the Trust Constitution, the Trust fully distributes its distributable income to unitholders by cash or reinvestment. Distributable income is determined by reference to the taxable income of the Trust.

g) Transfers to/from unitholders' funds

Non-distributable income is transferred directly to unitholders' funds and may consist of accrued income not yet assessable, expenses provided or accrued for which are not yet deductible, net capital losses and tax free or tax deferred income. Net capital gains on the realisation of any investments (including any adjustments for tax deferred income previously taken directly to unitholders' funds) and accrued income not yet assessable will be included in the determination of distributable income in the same year in which it becomes assessable for tax.

**NOTES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013 (continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

h) Applications and redemptions

Applications received for units in the Trust are recorded net of any entry fees payable prior to the issue of units in the Trust. Under the Constitution, the Responsible Entity is entitled, but not obliged, to redeem units in the Trust. In the event that the Responsible Entity determines that the Trust is liquid (as defined in the Constitution) or the Trust ceases to be registered as a managed investment scheme, then the Responsible Entity will be obliged to redeem units in accordance with the terms of the Constitution.

i) Goods and services tax (GST)

Revenue, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the assets or as part of an item of expenses. Receivables and Payables in the balance sheet are shown inclusive of GST.

j) Comparative figures

When required by the Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

k) Critical accounting estimates and judgements

The trustees evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the trust.

l) Adoption of new and revised accounting standards

During the current year, the Trust has adopted all of the new and revised Australian Accounting Standards and Interpretations applicable to its operations which became mandatory.

m) New accounting standards

The Australian Accounting Standards Board has issued new and amended Accounting Standards and Interpretations that have mandatory application dates. In respect of the more applicable Accounting Standards and Interpretations, a discussion of those changed requirements and their impact on the Trust is as follows;

- AASB 13: *Fair Value Management* and AASB 2011-8: *Amendments to Australian Accounting Standards arising from AASB 13* (applicable for annual reporting periods commencing on or after 1 January 2013).

**Australian Forestry Management
2004 Land Trust**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013 (continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) New accounting standards (continued)

AASB 13 defines fair value, sets out in a single Standard a framework for measuring fair value, and requires disclosures about fair value measurement.

AASB 13 requires:

- inputs to all fair value measurements to be categorised in accordance with a fair value hierarchy; and
- enhanced disclosures regarding all assets and liabilities (including, but not limited to, financial assets and financial liabilities) measured at fair value.

These Standards are expected to result in more detailed fair value disclosures but are not expected to significantly impact the amounts recognised in the Trust's financial statements.

- AASB 2012-5: *Amendments to Australian Accounting Standards arising from Annual Improvements 2009-2011 Cycle* (applicable for annual reporting periods commencing on or after 1 January 2013).

This Amending Standard amends a number of Australian Accounting Standards as a consequence of the issuance of *Annual Improvements to IFRSs 2009-2011 Cycle* by the International Accounting Standards Board, including:

- AASB 1: *First-time Adoption of Australian Accounting Standards* to clarify the requirements in respect of the application of AASB 1 when an entity discontinues and then resumes applying Australian Accounting Standards;
- AASB 101: *Presentation of Financial Statements* and AASB 134: *Interim Financial Reporting* to clarify the requirements for presenting comparative information;
- AASB 116: *Property, Plant and Equipment* to clarify the accounting treatment of spare parts, stand-by equipment and servicing equipment;
- AASB 132 and interpretation 2: *Members' Shares in Co-operative Entities and Similar Instruments* to clarify the accounting treatment of any tax effect of a distribution to holders of equity instruments and
- AASB 134 to facilitate consistency between the measures of total assets and liabilities an entity reports for its segments in its interim and annual financial statements.

FOR THE YEAR ENDED 30 JUNE 2013 (continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m) New accounting standards (continued)

This Standard is not expected to significantly impact the Trust's financial statements.

2. AUDITOR'S REMUNERATION

Auditor's remuneration of \$1,400 (2012: \$1,400) for the audit of these annual financial statements and the Trust's compliance plan was charged to, and is to be paid by, the Responsible Entity from its own resources and is not paid out of assets of the Trust.

4. INVESTMENT PROPERTY

	30 June 2013	30 June 2012
	\$	\$

The current market value of the land is estimated to be in the order of \$190,000 due to it being encumbered by Forestry Rights Interests until the plantations are harvested in 26 to 31 years from planting (2005). As the term of the Forestry Rights Interests reduces, it is expected that the market value of the land will increase. Accordingly, after the Forestry Rights Interests cease (being after harvesting) it is expected that the market value of the land will then exceed cost.

Those standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.
